Blanks in times occur when no runner from that team appears in that Leg in the results. Some teams sent multiple runners through chutes and several teams had members run multiple legs. Blanks in times occur when no runner from that team appears in that Leg in the results. That blank will also create a blank in the next leg as well. For those legs, the team total recorded time is used less the scratch time of 15 minutes.

Blanks in times occur when no runner from that team appears in that Leg in the results. Some teams sent multiple runners through chutes and several teams had members run multiple legs. Blanks in times occur when no runner from that team appears in that Leg in the results. That blank will also create a blank in the next leg as well. For those legs, the team total recorded time is used less the scratch time of 15 minutes.
